Summary:

Software Developer with hands-on experience in designing, building, and maintaining web and desktop applications using C#, ASP.NET MVC, Web Forms, Angular, RESTful APIs, and SQL Server. Proven track record of contributing to enterprise-level solutions in supply chain and logistics, including developing a Logistics Management System (LMS) from the ground up. Strong problem-solving abilities, collaborative team player, and fast learner, eager to grow and excel within a dynamic multinational environment.

Education:

Bachelor of Computer Science (Al-Azhar University)

Major: Math and Computer Science

Overall Grade: very good.

2020

Experience:

Software developer at Raya Trade

May 2025 – now

Projects & Contributions:

- LMS – Logistics Management System (Containers & Shipping)
 - Built the system to manage container operations
 - Initially developed using Angular + RESTful APIs, then migrated to ASP.NET MVC
 - Designed APIs and integrated frontend with backend services
 - Worked closely with Operations team to gather requirements and deliver real business value
- Serial Control (Desktop Application)
 - Worked on developing and maintaining desktop modules for serial tracking and validation
 - Tech: .NET Framework (Desktop App)
- Warranty Card (Web App)
 - Provided support, bug fixes, and feature enhancements
 - Tech: ASP.NET Web Forms
- 3PL – Third-Party Logistics (Web App)
 - Contributed to logistics features and system enhancements
 - Tech: ASP.NET Web Forms
- Supply Chain Management (Web App)
 - Developed new features to support Operations workflows
 - Tech: ASP.NET MVC, .NET Framework

Training:

Intensive Training Program (ITP) at Information Technology Institute (ITI)

Nov 2024-Apr 2025

Net Full Stack Web Development Track

Examination System: <https://github.com/Mohamed-0cs/-Examination-System-using-C-.git>

(console application that administers student exams, evaluates responses, and records scores)

- C# and OOP

Database Examination system : <https://github.com/Mohamed-0cs/DataBase-Examination-System-.git>

- SQL Server

Courses:

Front-End Course presented By Depi included (Angular framework)

Apr 2024-Oct 2024

MTECH Store : <https://github.com/Mohamed-0cs/E-commerce-labtop-Angular.git>

- HTML, CSS, Bootstrap, JavaScript, Angular

Front-End course presented by Don Bosco Institute (Native)

Nov 2023- Jan 2024

Technical Skills:

Web Technology (Back end):

- C#
- Oop Using c#
- ASP.Net Core Web API
- ASP.Net Core MVC
- Entity framework
- LINQ
- ADO.NET
- Data Base: SQL

(Front end):

- Angular
- TypeScript
- JavaScript
- Bootstrap
- HTML5
- CSS3
- Tailwind CSS
- NgRx
- RxJs
- SignalStores

Version Control: Git, GitHub

Personal Skills:

- Problem-Solving & Critical Thinking
- Communication & Presentation Skills
- Attention to Detail
- Time Management

Military Status: Completed

Languages:

- Arabic: Mother Tongue
- English: Very Good
